

ENVENT'S ENVIRONMENTAL SCOPE & POLICY

ENVIRONMENTAL SCOPE

The Environmental Management System ('EMS') at Envent Engineering covers the design, manufacturing, distribution, and servicing of its proprietary analytical systems and related accessories, as well as the distribution and servicing of second-party analytical systems. The EMS applies to all operations within the organization at 2721 Hopewell Place, Calgary, Alberta, Canada.

ENVIRONMENTAL POLICY

Envent is committed to protecting the environment, preventing pollution, and complying with the principles of ISO 14001 standards and relevant environmental legislation and regulations.

Our environmental policy is based on the following principles:

- Environmental Management System Implementation:** Implementing an environmental management system based on ISO 14001 standards; and local, and provincial regulations to manage and prioritize environmental aspects and impacts.
- Environmental Objectives and Target Setting:** Setting measurable, achievable, and relevant environmental objectives and targets and reviewing progress towards meeting them regularly.
- Environmental Awareness and Responsibility:** Promoting a culture of environmental awareness and responsibility among employees, contractors, and suppliers, and providing training and resources for environmentally responsible practices.
- Natural Resource Reduction:** Reducing natural resource use such as energy and water by implementing energy-efficient equipment and practices.
- Pollution Prevention & Responsible Waste Disposal & Minimization:** Implementing pollution prevention methods, minimize waste generation, and ensure materials are reused, recycled, and waste is disposed of in an environmentally responsible manner.
- Policy Review and Update:** Regularly reviewing and updating the policy to reflect the company's commitment to environmental protection and continuous improvement.

We believe that our success as a company depends on the health and sustainability of the environment. By integrating environmental considerations into all of our business decisions, we can create value for our customers, our shareholders, and the communities in which we operate.
